PERFORMANCE THROUGH TECHNOLOGY...

The Morris Lubricants Race brand is the latest update to our comprehensive range of performance motorcycle lubricants which have been specially formulated for the exacting demands of motorcycles and scooters.

Race products can be used in a wide variety of makes of performance motorcycles, tourers, cruisers and custom machines. Also suitable for highly tuned competition engines providing the latest technology with outstanding load-carrying and cleanliness performance, necessary for full power output. They've been tested under extreme competition conditions and further evolved in consultation with elite riders.

OVER 150 YEARS OF TRADITION IN EXCELLENCE

James Kent Morris could never have envisaged the future evolution of his business to a global oil exporter when he set up shop in Shrewsbury on December 7, 1869. Over 150 years later and now one of the leading oil blenders in Europe, Morris Lubricants has exported its Superior Quality Lubricants to 90 Countries worldwide. With a proud British heritage the company is one of the largest family-owned lubricants manufacturers that goes back 5 generations.

GUY MARTIN – BRAND AMBASSADOR

One minute he may be working under a truck, the next racing around a road circuit on a superbike or taking part in another challenge for TV, but Guy Martin remains as down-to-earth as a Lincolnshire lad could be. Now as a proud ambassador for Morris Lubricants he commented on his first visit to the factory:

"I just thought it was a few blokes in a shed in Shrewsbury, but to come here and see what goes into the blending and testing of the oils is amazing. I was really impressed by the whole Morris operation and it's now an honour to be part of it."
